

Application Success Story:

Industry: Mining

Product: Coal Slurry

Sealing Solution: Mechanical Seal

- **Problem**

- Excessive erosion
- VERY tough application
- Packing had to be replaced every two months
- Poor housekeeping

- **Solution**

- **SpiralTrac™ Version N Type A** installed with a Chesterton 442 split mechanical seal
- SpiralTrac and mechanical seal combination lasted at least ten times longer

Equipment info

- Warman 4/3 EHH in series
- Coal Prep
 - 33% slurry with magnetite
