

Application Success Story:

Industry: Mining

Product: Salt Cone Underflow

Sealing Solution: Mechanical Seal

- **Problem**

- Typical flow loop 20% slurry carried in supersaturated brine at 240° F (115.5°C)
- High maintenance costs

- **Solution**

- **SpiralTrac™ Version N** installed with 180 mechanical seal

Equipment Info

- Goulds Morris 35C-11
