**Problem**
- Excessive flush and leakage
- Severe packing and sleeve wear
- Packing had to be replaced every three weeks
- High maintenance costs

**Solution**
- **SpiralTrac™ Version P**
  - Type S modified to accept three rings of packing
  - Now operating with minimal flush
  - Dramatically increased MTBR
  - Dramatically decreased operating and maintenance costs
  - Packing is now lasting at least six times longer

**Equipment Info**
- Clove Rotor Thick Stock Pump
- Model 1200
  - 10.000" (254mm) sleeve
  - 11.500" (292.10mm) bore
