

Application Highlight

Copper Mining | Concentrator | Packing

Application Info & Challenge

- **Copper mining**
- **Process area:** Concentrator
- **Equipment:** WARMAN 10/10 Emergency Pumps

Improvements had to be made in the sealing of the equipment, because the original seal only lasted one month on average.

Equipment being assembled together

Solution & Result

- Chesterton 170 Slurry Single Cartridge Seal
- **Version N Type I SpiralTrac** (press-fit impeller side installation)

After installing the Chesterton sealing solution, the application ran successfully for **over a year!**

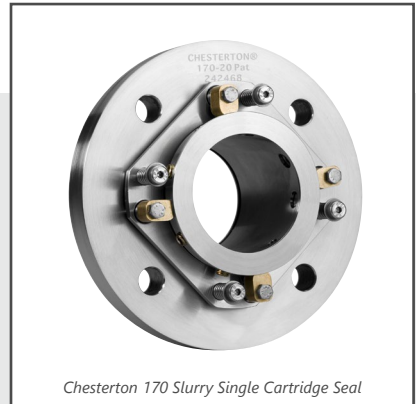

To date, the Chesterton specialist has sold more than 20 additional sealing solutions to the customer.

Chesterton Solution (170 Seal + SpiralTrac) installed in Warman Pump

Version N Type I SpiralTrac

Chesterton 170 Slurry Single Cartridge Seal
