

Application Highlight

Copper Mining | Tailings | Packing

Application Info & Challenge

- **Copper mining**
- **Process area:** Tailings
- **Equipment:** Warman 12/10 and larger Slurry Pumps

Customer used the kit supplied by a competitor and always had issues with constant loss of product. Customer is looking to decrease or eliminate this product leakage.

Warman Slurry Pumps

Solution & Result

Chesterton SuperSet™

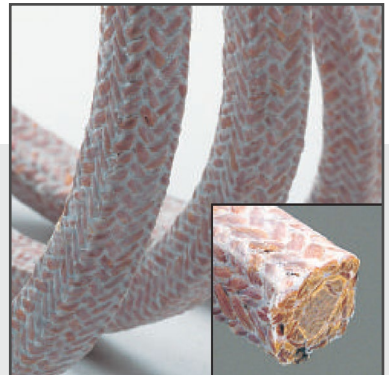

- Chesterton 1727 Multi-Lon Pump Packing
- **Packing Version SpiralTrac™** made of 660 Bronze (BRZ) material

The Chesterton Solution completely eliminated product leakage. Customer is very satisfied and is looking into other opportunities to improve on similar applications.

EnviroSeal always recommends flow controls when installing a Packing Version SpiralTrac.
